Dear Dr. David Balsiger,

The Film Advisory Board, Review Committee, is pleased to announce  
"Friend For Life" has been honored with our Award of Excellence tribute.

Friendships are fascinating, they offer a myriad of endless surprises that are endearing. "Friends For Life" is a monumental tribute to the essence of friendship. These expressions are vividly threaded throughout this marvelous story of a man, in deep despair, unwittingly cries out for help, finds purpose when he opens his heart to needy baby wolves. As the story unfolds the unscrupulous land developer discovers a stronger presence is afoot and events do not materialize as planned. The story holds a sense of real human experiences that are not hyped with over the top sensationalism and disturbing plot twists, is a breath of fresh air. Majestic vistas and magnificent lush forest add special elegance, a sense of ethereal imagery, to the story, that stars an archangel, as the symbol of caring. The significance of these visuals are not lost in the allure of "Friends For Life," a wonderful family film that speaks volumes for goodness in life

"INSPIRING! An Unforgettable Story About Four Wolves And A Man  
Who Formed A Bond Of Caring...JUST BEAUTIFUL."

"A Profoundly Moving Story That Will Touch Your Heart."

"A Gripping Story About Challenges, About Noble Acts Of Kindness And  
The Miracle Of Divine Intervention."

Thank you for giving the Film Advisory Board the opportunity to review  
the endearing "Friends For Life" film.
